

Ergo Design

November 18-20, 2008

Cambridge, ON
8:30 a.m. - 5:00 p.m.

This ergonomics design and implementation course will run from Tuesday until Thursday at noon. On Thursday afternoon, the facilitator/ergonomist will be available to help you with a project you bring from your facility.

You will learn to:

- ▶ Lead brainstorming sessions to develop solutions for ergonomics issues
- ▶ Research solutions, using your available resources
- ▶ Mock-up solutions to determine feasibility and effectiveness, and conduct objective product trials
- ▶ Choose the best solution, using cost benefit analysis
- ▶ Describe and use "anthropometric data"
- ▶ Apply design guidelines to determine the best specifications for a solution
- ▶ Create a report to summarise your recommendations
- ▶ Track and support the implementation process
- ▶ Effectively document solutions

The course includes detailed ergo design guidelines for the following:

Carts	Floor surfaces	Lighting	Seating
Clearance	Foot pedals/buttons	Mechanical assists	Work design
Containers	Handles	Personal prot. equip.	Work flow/conveyors
Controls	Hand tool design	Reaches	Working height
Displays	Hand work	Repair & maintenance	

Your course fee includes:

- ▶ 2 ½ days of interactive learning
- ▶ ½ day of project support from a certified ergonomist
- ▶ Detailed course manual
- ▶ Quick reference guide and design guidelines

Registration: Fax this to 519 632-7469, or call for info: 519 632-5103

Or mail it with your cheque to Taylor'd Ergonomics at P.O. Box 1107, Ayr, ON N0B 1E0

Who will benefit?

- ▶ Plant engineers
- ▶ Equipment designers
- ▶ Health & safety co-ordinators
- ▶ Ergo team members
- ▶ Occupational
